Preface

With pleasure this the First edition of Henderson's City of Saskatoon Directory is presented to our patrons. The continuation of the healthy growth of this beautiful city is a source of gratification and we have faithfully chronicled this prosperity in this volume. As is usual in our publications we give a statement of the number of addresses given in this volume. In this edition, 2252 names of individuals appear, also the names of 298 firms and corporations; in all 2550 addresses being given.

The labor entailed by an absence of a System of house numbering has magnified the task of producing this work as the roundabout manner of describing the location of a place of business or a private residence left room for minor mistakes to occur. Notwithstanding this the great care taken by our enumerators has reduced these errors to a minimum and besides the errors themselves are not in any case misleading. However in the very nature of things, this city must soon adopt a house numbering system and in our future issues the great difficulty of describing locations will have been largely removed.

We claim again that this volume represents more fully and clearly than any other medium the development of the city. This fact has appealed to the business community and we have added to the list of our patrons considerably, the business public appreciating the inauguration of a city directory distinct from the Western Canada Gazetteer which has hitherto served. This enables us to present a good sized volume with fine typographical appearance. By using a heavy stock and new type faces we have a volume which in size alone is an advertisement for the City of Saskatoon. We heartily thank our patrons for their appreciation and also all those who have assisted us in obtaining full and reliable information and have endeavored to show our gratitude by the pains we have taken for accuracy and completeness of information.

We are, yours sincerely,

HENDERSON DIRECTORIES, LIMITED

City of Saskatoon.

An incorporated city (May 29, 1906) on the South Saskatchewan River, on the Prince Albert branch of the C. N. R., 160 miles north of Regina and 87 miles from Prince Albert. The main line of the C. N. R. is about 14 miles northwards at Warman.

Has three sash and door factories, flour mill and machine shop, eight churches and three public schools, two daily and two weekly newspapers, seven chartered banks, hospital and eight licensed hotels.

Saskatoon is the natural distributing centre of the great Saskatchewan Valley of Western Canada, a hard wheat area unequalled in the whole world for extent and fertility.

It is the divisional point on the Prince Albert branch of the C. N. R., and the crossing point (bridge 962 feet long) on Saskatchewan River for the Kirkella branch and the Sheho branch of the C. P. R. which is building westward to Wetaskiwin, thus giving the C. P. R. a short line from Winnipeg to Edmonton.

The Grand Trunk Pacific Railway are constructing their main line (transcontinental) through the southern suburbs of Saskatoon.

The location of the City, on the banks of the Saskatchewan River, is very fine. The foliage along the river banks affords a pleasant change from the monotony of the ordinary prairie town. The old village of Nutana, on the south bank of the river, is situated on high ground, on a level with the surrounding prairie, and overlooking the business district. It was the original townsite of Saskatoon, but is now within the corporation limits, the area of which is about four square miles.

The climate of the Saskatchewan Valley is exempt from extremes of heat or cold and from high winds, while there is an abundance of bright sunshine throughout the year.

The executive of the city, under the new charter, will consist of three commissioners, who shall be the Mayor and two others to be appointed by the Council, under whose guidance they will act and to whom they shall report.

The Corporation owns and operates its own gas and electric lighting plant. A system of waterworks and sewerage are now under construction.

The pumping plant of the waterwork system is situated on the North side of the Saskatchewan river, somewhere above C. P. R. bridge and consists of a reciprocating pump with capacity of 700 gals. per minute. This draws its feed from the sedimentation basin 400x200 feet. There are to be 34,000 feet of mains varying from 12 in. to 4 in. and 73 fire hydrants. Stand pipe with capacity of 160,000 gals. will be on the Nutana side of the river. It will be 80 feet in height, the base being 64 feet above the level of the C. N. R. station. The domes-

tic pressure from the full stand pipe will be 80 lbs. in the business portion of the city. For fire purposes, direct pump pressure will be 125 lbs.

There are at present five bridges erected and being built across the Saskatchewan River at Saskatoon.

The sewerage system being installed will comprise 29,000 ft. of vetrified tile pipe sewers emptying into the river one mile below the centre of the city.

The electric light system will consist of a 225 Kilowat generator with a capacity of 25,000 c. p. lights. There will be 28 arc lamps for street lighting. They have also leased the plant of the Old Gas Power Co.

Telephone system covering City and suburban lines is an automatic secret service central energy and all metallic circuit being the only system of its kinds in Western Canada. Four hundred phones are now installed which number can be increased as required.

Elevator capacity 76,000 bushels.

SYSTEM OF STREET NAMES AND NUMBERING.

Streets run east and west.

Avenues run north and south.

The townsite has been laid out allowing 18 streets in Nutana south of the Saskatchewan River. Eighth to Eighteenth Streets being within the Corporation limits; while First Street to Seventh Street lie south of the southern city limits. First Street to Eighteenth Street are in Nutana, Nineteenth Street being the first street on the west side of the River. East of the C. N. R. tracks and west of the River streets are numbered from Nineteenth to Twenty-sixth. West of the C. N. R. tracks in Riversdale streets number north from Eleventh to Thirty-third, the northern city limits.

With the Avenues the C. N. R. tracks are the dividing line. Avenues First, Second, Third, Fourth and Fifth running north and south and paralleling the C. N. R. tracks to the east are arranged numerically from the C. N. R. to the Saskatchewan River. West of the C. W. R. avenues are arranged alphabetically from Avenue A to Avenue P, the western city limits.

In Nutana the street information is taken east from the Saskatchewan River to eastern city limits. On the Avenues north from 8th Street the southern city limits. The system of house numbering adopted by various cities throughout the continent known as the Decimal or Philadelphia system, viz., an even hundred numbers are allotted to each block the principal advantage of the system is that the number indicates how many blocks distant it is from any given point on a street or Avenue.

On the Avenues, which run north and south, a number is allotted for every 12 feet and on streets running east and west, a number is allotted for every 15 feet.

Odd numbers on the east and north sides. Even numbers on the west and south sides.

THE STORE OF SATISFACTION.

Our continual and foremost thought is to make this Store an ideal trading place for you.

We are ever striving to that end, that you may find here what you want, when you want it and at the price you want to pay.

At the present time our Business embodies eight departments—

The Men's Wear Department This Department has without exception the most complete line of Men's Goods in this City.

The Ladies' Ready-to-wear Department If it's fashionable and up-to-date this Department has it.

The Boot & Shoe Department The Queen Quality Shoe for Women
The Slater Shoe for Men
The Foot Schuize Shoe for everybody

The Dry Goods Department Everything in the way of Dress Goods, Silks, Ribbons, Staples, Notions, Etc., of the highest quality.

The Grocery Department If it's good to eat or drink you can get it here and at the right price.

The Hardware Department Carries all kinds of Mechanics' Tools, Graniteware, Stoves, Heaters, Etc. Orders promptly executed.

The Housefurnishing Department Has everything in stock for beautifying the Home, except the Furniture.

The Dressmaking Department This Department has an enviable reputation for the making of Stylish Costumes. Give our Modiste a trial.

Everything in each of these Departments carries with it
